### Description of the accident (claimant's words)

I was stopped at a red light on the main road in Conroe, Texas, with my foot on the brake, when the car behind me hit my rear bumper hard enoguh to push my vehicle forward into the intersection. I felt a sharp jolt through my neck and lower back, and I stayed in my seat for several minutes before getting out. I have described the crash the same way every time I have spoken about it, whether to the other driver, the officer at the scene, or the adjuster who called me. I am the named driver on this policy and I was operating my own vehicle with permission from the policyholder. Since the collision I have been treated for a neck and back strain, and I have been following my doctor's instructions for physical therapy and rest. I am providing this account so the claim can be processed accurately.
