Officer's narrative

Driver 1 was stopped in the left lane of northbound traffic on a Conroe, Teaxs roadway when Driver 2 failed to slow in time and struck the rear of the vehicle. Driver 1 was operating the vehicle at the time of impact, and a Passenger was also seated inside. Responding officers confirmed that Driver 1 and the Passenger were both present in the vehicle when the collision occurred, and that fact was consistent with statements taken at the scene. Driver 2 stated that the collision happened in the manner Driver 1 described, and two independent witnesses gave accounts that matched this description. Scene photographs were taken and reviewed. The damage to the rear of Driver 1's vehicle corresponds to the force and point of impact observed at the scene. No prior damage to the vehicle was reported or observed. Driver 1 reported neck and back discomfort following the impact, a complaint that fits the nature and force of a rear-end collision of this kind. Driver 1 is listed as a named insured on the policy covering the vehicle involved.
