Description of the accident (claimant's words)

I was chnaging lanes on a busy road in Conroe, Texas, checking my mirror and signaling as I moved over. Another vehicle came up alongside me in the lane I was entering and our sides made contact. I pulled to the shoulder right after, and I stayed calm while we exchanged information. Since the collision, I have had pain in my right shoulder, which I first noticed while gripping the steering wheel to keep the car steady. When I have given my account to others, I have sometimes remembered a few small details more clearly, but the core of what happened has stayed exactly the same. I am the named driver on this policy and I am submitting this statement so the claim can be reviewed.
