Recorded Statement

Claim number:	C-1353
Statement of:	Justin Middleton
Taken by:	Valerie Rodriguez
Date:	July 14, 2024

Q: Thank you for taking the time to speak with me today. This recorded stateemnt concerns the rear-end collision in Pasadena, Texas. Please state your full name for the record.

A: I'd rather just give you my details without the name on tape, if that's okay. I'm the driver of the vehicle that was struck from behind.

Q: That's fine. Can you describe how the collision happened?

A: I had stopped at a traffic light on a main road. I was completely stopped, foot on the brake. Then I felt a hard jolt from behind and my head snapped forward and back.

Q: Were you wearing your seatbelt?

A: Yes, I was. The airbags did not deploy, but the impact pushed me forward hard enough that I hit my head on the steering wheel.

Q: Did you lose consciousness or feel dazed afterward?

A: I didn't pass out, but I felt foggy and had a ringing in my ears. The light seemed too bright, and I couldn't focus on anything for a while.

Q: Did you seek medical attention?

A: Yes, the paramedics came and checked me, and I went to the emergency room later that day. They told me I had a concussion. I've been dealing with headaches, trouble sleeping, and I get tired very quickly.

Q: Have you been following the treatment plan your doctor gave you?

A: Yes, I've been resting as much as I can, and I'm seeing a specialist for follow-up. I've had to cut back on work because I can't concentrate for long periods.

Q: Thank you. Is there anything you would like to add to your statement?

A: Only that I'm still recovering, and I'd like this to be documented accurately. That's everything I can tell you right now.

Q: Thank you for your cooperation. This concludes the recorded statement.
