Claim Notes

Claim number:	C-1355
Claimant:	Leah Bowen
Adjuster:	Jerry Hanson

2025-04-26
Reported a sideswipe while changing lanes, with the claimant's vehicle struck on the driver's side. The claimant has retained counsel, and all further contact will go through the attorney's office.

2025-04-28
Obtained the police report, which places the claimant's vehicle in the lane change and lists the claimant as present in the car at the scene.

2025-06-02
Two independent witnesses gave statements that match the claimant's description of the collision, and the other driver confirmed the same sequence of events.

2025-06-15
Reviewed scene photos and the estimate. The damage to the side panels and mirror lines up with the impact described by everyone involved, and no older damage is visible in the file.

2025-06-29
Checked the policy history. The coverage was in force well before the loss, and nothing in the records suggests the vehicle damage predates the coverage start.

2025-07-03
The claimant's recorded statement through counsel describes the same sequence as the first contact. The account has not changed in any conversation so far.

2025-08-22
The initial medical report documents neck and back strain, which fits the force and direction of a side impact of this type. No prior treatment to the same areas appears in the records requested.

2025-08-28
Treatment began promptly after the accident. Visits have since increased and new services have been added month after month, well beyond what is typical for a strain injury of this kind.

2025-08-30
Asked the treating provider for an updated plan of care and the rationale for the added services. Response from counsel's office is pending.

2025-09-27
The driver of the veihcle lives in the policyholder's household and qualifies as a covered household member under the policy. Coverage for the driver's involvement is confirmed.

2025-09-28
Sent the medical bills and records to the medical review unit for an evaluation of treatment frequency and the services billed against the documented injury.

2025-10-09
Claim remains open. The liability picture is clear and the vehicle damage is consistent with the accident. Next step is the medical review, and counsel will be updated once it is complete.

Recorded Statement

Claim number:	C-1355
Statement of:	Leah Bowen
Taken by:	Jerry Hanson
Date:	2025-03-11

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision you reported in Baytown, Texas. Do I have your permission to record this call?

A: Yes, that's fine.

Q: Please state your full name and the best number to reach you.

A: I'd rather keep my pesronal details off the recording, but you have my claim file. Go ahead with your questions.

Q: That's acceptable. Can you walk me through what happened when the other vehicle made contact with yours?

A: I was in the right lane on the main road and needed to move over to the left lane because my exit was coming up. I checked my mirror, saw the lane looked clear, and started to merge. The other car came up beside me and clipped the rear quarter panel of my vehicle. It pushed me toward the median, and I had to correct the steering quickly.

Q: Did you see the other vehicle before you started your lane change?

A: I didn't see it in the mirror at that moment. It seemed to be in my blind spot, and I didn't catch it until the contact happened.

Q: Were you able to drive your vehicle from the scene?

A: Yes, it was still drivable, but the rear panel was damaged and the car pulled a little to one side.

Q: Have you been seen by a medical provider since the collision?

A: Yes, I went to an urgent care clinic the same day. I have pain in my neck and lower back. The neck is stiff when I turn my head, and my back aches after sitting for more than twenty minutes. The provider diagnosed a neck and back strain and gave me muscle relaxers and a referral to physical therapy.

Q: Is there anything else you would like to add before we finish?

A: Only that I want the repairs and medical care handled as quickly as possible, since I'm still having trouble with daily tasks.

Q: Thank you. That concludes the statement.
