Description of the accident (claimant's words)

I was driving in the right-hand lane on a multi-lane road in Baytown, Texas, when I moved left to change lanes. As I began to merge, a vehicle in the adjacent lane drifted into my car and made contact with the left side of my vehicle, pushing me toward the median before I could regain control. I pulled onto the shoulder right after the impact. I have described the events the same way each time I have spoken with anyone about them, and I have nothing to add or change. I am also the driver of this car as a member of the policyholder's household, since I live at the same address and am listed as a household member on the policy. Since the collision, I have had stiffness and pain in my neck and lower back, which I first noticed that evening and which has continued since then.
