Bodily Injury Unit

Claim Notes

Claim number:	C-1356
Claimant:	Rhonda Cole
Adjuster:	Valerie Rodriguez

2-23-23
Claim received by phone from the claimant, who reports a low-speed collision while backing out of a space in a parking lot. The claimant is not represented by counsel and is handling the matter directly.

3-20-23
Reviewed the policy file and confirmed the driver is named on the policy and coverage was in force at the time of the loss. No prior claims or gaps in coverage appear on the record.

3-24-23
Obtained the police report, which places the claimant in the vehicle at the time of the incident and notes the reporting officer's observations at the scene.

4-1-23
Contacted the other driver, who confirms the accident happened as the claimant described it. Witness statements received so far are consistent with that account.

4-8-23
Received photographs of both vehicles from the scene. Damage to the rear bumper and tailgate of the claimant's vehicle lines up well with the impact described.

4-13-23
Requested maintenance and prior repair history for the vehicle. No earlier damage to the same areas is known, and nothing in the records suggests the damage predates the coverage start.

4-19-23
Claimant reported neck pain and stiffness the day after the collision and provided initial medical records. The kind and force of the impact are a reasonable match for the reported injury.

5-11-23
Reviewed prior medical records. The claimant was treated for the same body area within the last two years, and that earlier condition adds to the current complaints, so it will be factored into the evaluation.

6-15-23
Claimant later supplied a few additional details about the seating position and the moment of impact. These are minor and do not change the core account, which has stayed consistent from the first report.

7-5-23
Treatment followed a usual course, with physical therapy and follow-up visits. Symptoms have been tapering as the claimant improves, and the most recent treatment notes reflect steady progress.

9-29-23
Based on the documented damage, witness and police confirmation, medical course, and the claimant's consistent account, the file is ready for evaluation. The prior body-area history will be noted in the injury assessment.

Recorded Statement

Claim number:	C-1356
Statement of:	Rhonda Cole
Taken by:	Valerie Rodriguez
Date:	2-22-23

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording like this, but you can list me as the claimant on the file.

Q: That's fine. Can you tell me where the collision happened?

A: It was in a parking lot at a shopping center in Sugar Land, Texas. I was backing out of a space near the main entrance.

Q: What happened just before the impact?

A: I checked my mirrors, saw nothing behind me, and started reversnig slowly. About two seconds later I felt the other car hit the rear corner of my vehicle. It came in from the right side of the aisle.

Q: Were you moving quickly?

A: No, I was barely rolling. Maybe walking speed.

Q: Did you see the other driver before the impact?

A: No. Their vehicle was partly hidden by a column between our spaces.

Q: What injuries are you reporting?

A: I have neck pain and stiffness. I went to an urgent care clinic that same afternoon and was told I have a neck strain. I've been wearing a soft collar when I drvie and I've had trouble turning my head to the left.

Q: Have you seen anyone else for the neck since then?

A: I'm scheduled to see my family doctor next week. The urgent care gave me some anti-inflammatory medication and a referral.

Q: Do you have any prior neck problems?

A: Nothing serious. I had some stiffness a few years back after sleeping wrong, but it resolved on its own.

Q: Is there anything else you want to add?

A: Only that I'd like the damage estimate to reflect the rear quarter panel and the bumper bracket, since I noticed both after the car was moved.

Q: Thank you. This concludes the statement.

A: Thanks.
