### Description of the accident (claimant's words)

I was making a left turn at an intersection in Houston, Texas, when another vehicle struck the side of my car. I had the green light and was moving slowly through the turn when the impact threw me against my seatbelt and then back into the seat. I felt immediate pain and stiffness in my neck, and I have been treated for a neck strain since then. I have described the collision the same way each time I have spoken about it, from the scene onward. I am the household member of the policyholder, and I live in the same home, so I am listed as a covered driver under this policy. I am providing this statement so the claim can be reviewed and my medical costs and vehicle damage can be addressed.
