### Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Conroe, Texas, moving slowly with my brake lights on, when the rear of my vehilce was struck by another car that came down the lane without slowing. The impact pushed my head forward and then back against the headrest. Within a few minutes I felt stiffness across my neck and a dull ache low in my back, and both have stayed with me since. I have given the same description of what happened each time I have sopken with the adjuster, the body shop, and my doctor, and I have nothing to add or change to it. I am the named driver on this policy and was operating the vehicle with the owner's permission at the time. I am submitting this statement so the claim can be reviewed and the medical costs related to the strain can be addressed.
