Officer's narrative

On arrival at the intersection in Pearland, Texas, I found a two-vehicle collision. Driver 2 was attempting a left turn across oncoming tarffic when the front of their vehicle struck the side of Driver 1's vehicle. Driver 1 reported a fractured wrist from the impact and stated they had remained behind the wheel throughout. Passenger was also in Driver 1's vehicle, and both Driver 1 and Passenger confirmed this to me. No independent witnesses came forward. The force of the collision appears consistent with the injury Driver 1 described. Scene photographs show some of the damage the drivers described, but I could not determine whether all of the visible damage resulted from this impact. Vehicle records checked during the investigation show similar major damage to Driver 1's vehicle from an earlier incident that was never reported to police. Driver 1 is named on the policy covering the vehicle.
