Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1361
Claimant:	Cynthia Steele
Adjuster:	Valerie Rodriguez

9-17-23
The claimant reported a sideswipe while changing lanes and described a knee injury from the impact. The claim was opened and the file assigned for review.

9-18-23
Photos taken at the scene confirm several details of the reported damage to the side panels. No independent witnesses have come forward, so the photos are the main visual record at this stage.

10-20-23
The damage to the vehicle is mostly in line with the impact described by the claimant. No earlier damage to the vehicle is known, and nothing suggests the damage happened before the coverage started.

11-14-23
The driver is named on the policy. Police records and witnesses confirm the claimant was in the vehicle at the time of the incident.

2-28-24
The claimant gave the same account in every conversation so far. The knee injury is plausible for a collision of this type, and no earlier injury to the same body area is known.

4-14-24
Medical treatment followed a usual course and tapered off as the claimant improved. The claimant is not represented by a lawyer and has been dealing with the claim directly.

5-9-24
Based on the photos, the vehicle damage, the mediacl course and the consistent account, the claim appears consistent with the reported incident and remains open pending final review of the medical and repair records.

Recorded Statement

Claim number:	C-1361
Statement of:	Cynthia Steele
Taken by:	Valerie Rodriguez
Date:	9-25-23

Q: Good afternoon. This is a recorded statement for claim file reference that I will not read out. Please state your full name for the record.

A: I'd rather just say I'm the driver of the blue sedan involved in the accident. I'll give you what I can.

Q: That's fine. Can you describe where the accident happened?

A: It was on a multi-lane road in Katy, Texas, near a shopping center. I was in the right lane getting ready to move over into the middle lane because I needed to turn at the next light.

Q: What happened when you changed lanes?

A: I checked my mirror and saw nothing close, so I signaled and started to move. Then I felt a hard bump on the driver's side. The other vehicle had come up in my blind spot and clipped my front quarter panel as it passed.

Q: Did you see the other vehicle before the contact?

A: Not clearly. I glanced at the mirror and it looked like it was far back. By the time I looked again it was already beside me.

Q: Were you injured?

A: Yes. My right knee hit the loewr part of the dashboard when the car jolted. It swelled up within an hour and I've had trouble putting weight on it since. I went to urgent care that evening and they took X-rays.

Q: Have you received any treatment since then?

A: I've been seeing a physical therapist twice a week and I was told I may need an MRI. I'm still working out whether I need surgery.

Q: Did you speak with the other driver at the scene?

A: Briefly. He apologized and said he didn't see me. We exchanged insurance information and that was about it.

Q: Is there anything else you'd like to add?

A: Only that my car has a dented door and a cracked headlight, and I'd like the repairs handled promptly.

Q: Thank you. That concludes the statement.
