Claim Notes

Claim number:	C-1365
Claimant:	Tracy Davis
Adjuster:	Valerie Rodriguez

2023-08-18
Claim opened after a rear-end collision at a signalized intersection. The claimant reports a concussion and is not represented by counsel, so all contact is with the claimant directly.

2023-08-23
Verified that the driver is named on the policy and that coverage was in force at the time of loss. Nothing in the file suggests the damage predates the policy start.

2023-09-26
Police report and two independent witnesses confirm the claimant was in the vehicle and that the collision occurred as described. The other driver's statement matches on sequence and point of impact.

2023-10-24
Reviewed scene photos alongside the repair estimate. Damage to the rear bumper, trunk, and tail lamp assembly lines up well with the impact described. No prior damage to the vehicle is known.

2023-10-29
Medical records show a concussion diagnosis, and the reported symptoms fit the kind and force of the crash. Prior records show a minor strain in the same region years ago that fully resolved.

2023-11-22
Treatment has run somewhat longer than is typical for this injury. Requested updated treatment notes and a referral summary from the treating provider to understand the course.

2023-12-15
Claimant later provided a few additional details about the event. These are minor, and the core account has stayed the same through each telling.

2024-01-08
File reviewed and held for the treating provider's updated notes. No coverage issues identified. Next step is to complete the injury evalutaion once the records are received.

Recorded Statement

Claim number:	C-1365
Statement of:	Tracy Davis
Taken by:	Valerie Rodriguez
Date:	2023-08-19

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for this, if that's fine.

Q: That's acceptable. Can you describe where you were and what you were doing when the collision happened?

A: I was stopped at a red light on a main road in Pearland, in the right lane. I had been waiting maybe half a minute when I felt a hard jolt from behind.

Q: Did you see the other vehicle before the impact?

A: Only in the mirror, for a second. It looked like it was coming up fast, and I braced myself on the wheel. There wasn't time to do anything else.

Q: How fast would you estimate the other vehicle was traveling?

A: I really can't say. It seemed quicker than traffic around it, but I'm not good at judging speed from a mirror.

Q: Were you wearing your seatbelt, and did your airbags deploy?

A: Yes, I had my seatbelt on. The airbags did not come out, I don't think.

Q: Did you hit your head during the collision?

A: I think my head snapped back and hit the headrest, and then forward. Right after, I had a headache, ringing in my ears, and I felt foggy and kind of nauseous.

Q: Have you sought medical treatment since the collision?

A: Yes, I was taken to an urgent care clinic and later saw my primary doctor. They told me I have a concussion and I've been told to limit screen time and rest as much as I can.

Q: Are you still experiencing those symptoms?

A: Some of them, yes. Bright lights bother me, and I get tired by the afternoon. I'm trying to take it easy.

Q: Thank you. Is there anything you would like to add to your statement?

A: Only that I'm glad no one else was seriously hurt, and I'd appreciate a call back if you need anything else from me.

Q: Thank you for your time. This concludes the statement.
