Officer's narrative

Driver 1 was stopped in the right-hand lane of the roadway in League City, Texas, when the vehicle operated by Driver 2 struck the rear of Driver 1's vehicle. Driver 2 reported that the vehicle was slowing for traffic when the impact occurred. Driver 1 was seated behind the wheel at the time of the collision, and a Passenger was also present in the vehicle. Driver 1 reported neck pain and stiffness consistent with whiplash and stated that the head and neck were thrown forward and back during the impact. The force of the collision and the position of both vehicles are consistent with that type of injury. Responding officers took photographs of both vehicles, which confirm the general location of the damage. No independent witnesses to the collision were identified at the scene. Officers could not determine with certainty whether all of the damage to Driver 1's vehicle resulted from this impact. No prior damage to the vehicle was known to the officers or reported by either driver. Driver 1 is listed as the named insured on the applicable policy.
