Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1367
Claimant:	Kevin Pearson
Adjuster:	Alison Sweeney

January 25, 2025
Claim received by phone from the claimant, who reports a low-speed collision in a parking lot and a wrist fracture from the impact. The claimant is not represented by an attorney and has been asked to send photos and the police report reference.

March 22, 2025
Reviewed the policy and confirmed the driver is listed as a named insured on the policy in force at the time. Vehicle damage photos received; the rear bumper and tail light damage appears consistent with the described impact.

May 29, 2025
Spoke with the claimant again and the account of the incident matched the first call in every detail. The police report and two parties on scene confirm the claimant was in the vehicle at the time. No independent witnesses have come forward.

June 5, 2025
Medical records show a wrist fracture with a treatment course that followed a typical pattern, with physical therapy tapering as the claimant improved. The injury apperas consistent with the kind and force of this type of collision. Records also note a small strain to the same area several years ago that healed fully.

July 22, 2025
A neighbor contacted the office and believes the vehicle already had damage a few weeks before the claimed date of loss. No earlier damage to the vehicle is recorded in our files, and the neighbor's statement has not yet been verified.

August 4, 2025
Photos confirm several details of the scene and damage, though they do not resolve the timing question raised by the neighbor. Next steps are to request the vehicle's prior repair history and a follow-up statement from the neighbor before making a coverage decision.

Recorded Statement

Claim number:	C-1367
Statement of:	Kevin Pearson
Taken by:	Alison Sweeney
Date:	December 13, 2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my full name on a recording, but you can note that I'm the driver of the vehicle involved.

Q: That's fine. Can you describe where the collision happened?

A: It was in a parking lot in Houston, Texas, at a shopping center. I was pulling out of a parking space near the main entrance.

Q: What were you doing right before the impact?

A: I was backing out slowly. I checked my mirror and saw nothing coming, but when I was about halfway out, another car came around the row from my left and hit the rear corner of my car.

Q: How fast were you traveling?

A: I was barely moving, maybe a couple of miles an hour. I had just put the car in reverse and was still on the brakes.

Q: Did you see the other vehicle before the collision?

A: No, not until it was right there. The lot was busy and there were a lot of cars parked along that aisle, so I couldn't see far down the row.

Q: Were you injured?

A: Yes. I put my right arm out to brace myself when the impact pushed me against the steering wheel and door frame. My wrist hurt immediately, and the doctor later told me it's fractured.

Q: Have you received medical treatment for the wrist?

A: Yes, I was seen at an urgent care clinic that same afternoon, and I've since been referred to an orthopedic specialist. I'm wearing a splint right now.

Q: Is there anything else you'd like to add?

A: Only that I've been cooperative from the start and I'm willing to provide the police report and my medical records.

Q: Thank you. This concludes the statement.
