Claim Notes

Claim number:	C-1368
Claimant:	Frank Chan
Adjuster:	Jerry Hanson

2024-04-03
Claim opened after a low-speed head-on collision reported by the claimant, who was driving the insured vehicle at the time. The claimant reports a wrist injury and states they are not represented by an attorney.

2024-04-24
Reviewed the police report, which confirms the claimant was in the vehicle at the scene. Scheduled a call to take a full statement and request the claimant's mediacl records.

2024-05-30
Claimant gave a statement today and described the impact the same way as on first notice of loss. No new details have emerged, and the account has stayed consistent across every conversation so far.

2024-06-10
Photos from the scene and the repair estimate show damage that lines up with the described impact. No independent witnesses have come forward, so the photos are the main evidence of how the collision happened.

2024-06-26
Confirmed with the policyholder that the claimant lives in the household and is a listed driver under the policy, so coverage applies to the claimant as a household member. Checked the policy effective history and found nothing indicating the vehicle damage perdates the coverage start.

2024-07-05
Requested prior vehicle records and inspected the repair file. No earlier damage to the vehicle is on record, and nothing in the file suggests a prior loss.

2024-07-17
Medical records received show a wrist fracture treated with a longer course of care than is typical for this injury. Requested additional treatment notes to understand the timeline of care.

2024-09-02
Searcehd available records and asked the claimant about prior problems. No earlier injury to the same area of the body is known, but the claimant's prior history is still being confirmed with the provider.

2024-09-04
The medical file does not yet establish whether the fracture was caused by this collision. Referred the file to the medical review team for an opinion on causation and the link between the crash and the injury.

2024-10-19
Status remains open pending the medical review and the remaining treatment records. Will follow up with the claimant once the causation opinion is back to discuss next steps.

Recorded Statement

Claim number:	C-1368
Statement of:	Frank Chan
Taken by:	Jerry Hanson
Date:	2024-03-10

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's okay.

Q: That's fine. For the record, can you confirm you were the driver of the vehicle involved in the collision in Katy, Texas?

A: Yes, I was driving my own car that day.

Q: Walk me through what happened, starting from when you first noticed the other vehicle.

A: I was heading down the two-lane road, maybe gonig around twenty-five miles an hour because of the traffic. The other car drifted into my lane and I tried to swerve, but we still hit nose to nose. It wasn't a hard hit, honestly, more of a jolt.

Q: Did your airbags deploy?

A: No, they didn't. I just got pushed back into the seat and my wrist hit the steering wheel and the door frame.

Q: Did you hit your head or lose consciousness at any point?

A: No, I stayed awake the whole time. My head didn't hit anything.

Q: Did you get out of the vehicle on your own?

A: I did. My wrist was throbbing right away, so I held it against my chest and waited for the police.

Q: Have you seen a doctor since the collision?

A: Yes, I went to urgent care the same afternoon. They took X-rays and said it was a fracture in my wrist. I've got a splint now and I'm following up with an orthopedic doctor.

Q: Did you have any prior injuries to that wrist or arm?

A: No, nothing before this.

Q: Is there anything else you think I should know about the collision?

A: Just that I'm right-handed, so it's been hard getting things done at home. That's about it.

Q: Thank you. That concludes the statement.
