Reported injury:	concussion

Description of the accident (claimant's words)

I was driving through the intersection in Pearland, Texas, when a vehicle coming from my right failed to stop and struck the side of my car. The impact spun my vehicle partway around and pushed it toward the curb. I remember the airbags deploying and a sharp ringing in my head, and I was dizzy and confused when I got out to check on the other driver. Paramedics later diagnosed a concussion. Since giving my fisrt statement at the scene, I have remembered a few more small details, such as the coolr of the other car's headlights, but the core account of what happened has not changed. I am the named driver on this policy and I am submitting this statement so the claim can be reviewed.
