Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1373
Claimant:	Connie Peters
Adjuster:	Chelsea Hebert

November 4, 2023
First notice of loss received for a left-turn collision at an intersection. The insured's vehicle was struck while turning, and the claimant reprots a knee injury from the impact. The claimant is represented by counsel, and all further contact will go through the attorney's office.

January 26, 2024
Reviewed the policy and confirmed the driver is named on it, with coverage in force on the loss date. Nothing in the file suggests the damage predates the policy start.

February 7, 2024
Photographs taken at the scene show damage that lines up with the described impact pattern. There are no independent witnesses beyond the parties involved, so the photos are the main visual record.

February 9, 2024
Police report and statements from responding officers confirm the claimant was in the vehicle at the time of the collision. No prior damage to the vehicle has been identified in the records pulled so far.

February 16, 2024
Claimant's account has been consistent across the recorded call, the written statement, and the follow-up with counsel present. The described knee injury is plausible for a crash of this type and nothing in the medical history shows a prior injury to that body area.

April 12, 2024
Treatment records show a usual course of care, with visits tapering as the claimant's knee improved over time. The billing matches the treatment documented and no unusaul gaps or escalations appear.

April 24, 2024
Reviewed the file as a whole. Vehicle damage, the police record, the photos, and the medical course are consistent with the reported loss. Claim recommended for standard evaluation of the bodily injury portion with counsel's demand to follow.

Recorded Statement

Claim number:	C-1373
Statement of:	Connie Peters
Taken by:	Chelsea Hebert
Date:	October 4, 2023

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's alright.

Q: Understood. For the record, can you describe where you were when the collision happened?

A: I was in my car, turning left off a main road in Houston, Texas, into a shpoping center driveway.

Q: What was the traffic like at the time?

A: It was fairly steady. There was a line of cars going the other way, and I had my turn signal on for a good while before I moved.

Q: How did the ohter vehicle come into the picture?

A: The other car was coming straight down the road from the opposite direction. I started my turn when there was a gap, and then it hit the front passenger side of my car.

Q: Did you see the other vehicle before the impact?

A: Not clearly. I glanced left and right, but it came up quickly, and I couldn't tell how fast it was going.

Q: Did you have any injuries?

A: Yes, my rihgt knee. It twisted against the dashboard and the pain got worse over the next day.

Q: Have you seen a doctor about the knee?

A: I went to urgent care the same evening, and I've had a follow-up since. They're still looking at it.

Q: Were there any passengers in your vehicle?

A: No, I was alone.

Q: Is there anything you'd like to add to your account?

A: Only that I was trying to make the turn safely and I believe the damage to my car reflects where it was hit.

Q: Thank you. That concludes the statement.
