Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Baytown, Texas, checking my mirror and signaling first, when a car in the next lane moved over and clipped the side of my vehicle. Both cars were pulled toward the shoulder, and the other driver left the scene beofre I could get a full exchange of information. I have described what happened the same way every time I have spoken about it, whether to the officer, to my insurer, or to the medical staff. My knee struck the door frame on impact, and I have had pain and swelling since. I am the policyholder's household member and was driving the family car with permission, so I am asking that this claim be considered under that coverage.
