Claim Notes

Claim number:	C-1376
Claimant:	Brandon Knight
Adjuster:	Darin Tyler

June 20, 2024
Reported today that a sideswipe occurred while the insured was changing lanes on a multi-lane road. The claimant is represented by counsel, so all further contact will go through the attorney's office.

July 12, 2024
Confirmed the insured is listed as a named driver on the policy and that the policy was in force at the time of the reported loss.

July 13, 2024
Obtained the police report. It records the collision, identifies the claimant as present in the vehicle, and notes two witnesses who stopped at the scene.

July 23, 2024
Spoke with the other driver, who described the lane change and the contact between the two vehicles in terms that match the insured's account of the event.

August 8, 2024
Reviewed the scene photographs. The damage to the insured's vehicle lines up with the side impact described by the parties and the witnesses.

September 3, 2024
Interviewed the first witness, who confirmed seeing the sideswipe and the vehicles separating afterward. The witness also confirmed that the claimant was seated in the passenger area.

September 18, 2024
Received the claimant's injury description through counsel, whcih reports a back strain. The kind and force of the impact appear consistent with that injury.

October 7, 2024
Received the initial treatment records. The care began promptly after the accident and followed a typical course for this type of soft tissue injury.

November 22, 2024
During a second recorded conversation, the claimant described the direction of the impact differently than in the first call. The claimant also gave a different count of the occupants in the car.

November 28, 2024
A neighbor contacted the desk and stated that the vehicle appeared to already be damaged some weeks before the reported loss. No photographs or other records have been provided to support this.

December 24, 2024
Checked prior claims and loss databases. No earlier injruy to the same area of the body and no earlier damage to the insured vehicle appear in the records.

January 28, 2025
Treatment has tapered as the claimant's symptoms improved, and the file is being held pending counsel's response to the discrepancies in the claimant's recorded statements and the neighbor's information.

Recorded Statement

Claim number:	C-1376
Statement of:	Brandon Knight
Taken by:	Darin Tyler
Date:	June 11, 2024

Q: Thank you for taking the time to speak with me today. This recorded stateemnt concerns the sideswipe collision you reported. Please state your full name for the record.

A: I'd rather just give the details of the accident, if that's okay.

Q: That's fine, we'll get to the details shortly. For the record, can you confirm you were the driver of the vehicle involved?

A: Yes, I was driving my own car.

Q: Where did the collision happen?

A: On a main road in Baytown, Texas. I was in the right lane getting ready to move over to the left so I could make my exit.

Q: What were you doing right before impact?

A: I checked my mirror, saw the lane was clear, and started to change lanes. Then I felt a bump on my side and heard scraping. The other car had come up in my blind spot.

Q: Did you see the other vehicle before you moved over?

A: I looked, but I didn't see it in the mirror. It must have been right beside me.

Q: Did you or the other driver stop afterward?

A: We both pulled onto the shoulder. We exchanged information and talked for a few minutes.

Q: Have you been seen by a medical provider since the collision?

A: Yes. I went to urgent care the same day. My lower back was stiff and sore, and they said it looked like a muscle strain.

Q: Are you still having symptoms?

A: Yes, I have pain when I bend or sit for long periods. I've been doing some stretching and taking over-the-counter pain relievers.

Q: Is there anything else you'd like to add to your statement?

A: No, I think that covers it. I'm just hoping to get my car repaired and my back feeling better.

Q: Thank you. This concludes the recorded statement.
