Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1377
Claimant:	Hannah Harris
Adjuster:	Chelsea Hebert

2025-04-22
Claim reported by the insured's representing attorney following a sideswipe that occurred while the insured's vehicle was changing lanes. Initial notice received and file opened for review.

2025-05-02
Reviewed the policy and confirmed the driver involved is listed as a named driver on the policy in force at the time of loss. No coverage questions have been identified at this stage.

2025-05-13
Obtained the police report, which places the claimant inside the vehicle at the scene. Responding officers and two other sources confirm the claimant's presence in the car.

2025-05-29
Photographs submitted by the claimant show the damage on the vehicle, and the pattern of the impact is consistent with the described side-to-side contact during a lane change.

2025-06-07
Inspected the insured vehicle and found no indication of earlier damage to the same panels. Repair estimate is bieng prepared based on the current findings.

2025-07-20
Spoke with the claimant's attorney, who provided medical records showing a wrist fracture. The injury is a plausible result of a collision of this type.

2025-08-22
Took a recorded statement from the claimant. The account of the lane change and contact was consistent with what was given during the first notice and in the prior phone call.

2025-09-17
Reviewed medical records noting that the claimant had a minor strain in the same wrist area several years ago, which healed completely with no lasting effects. Records do not show any ongoing condition linked to that event.

2025-11-01
Treatment after the accident followed a typical course, with physical therapy and follow-up visits that became less frequent as the claimant's range of motion improved.

2025-11-11
No independent witnesses have come forward to describe the lane change. The file relies on the photographs, the police report, and the physical evidence on the vehicles.

2025-11-14
Nothing in the file suggests the damage predates the satrt of coverage. The policy effective dates and the loss date are consistent with the reported timeline.

2025-11-20
Current assessment supports moving forward with the injury and property claims under review. Settlement evaluation to follow once the attorney submits the final medical billing summary.

Recorded Statement

Claim number:	C-1377
Statement of:	Hannah Harris
Taken by:	Chelsea Hebert
Date:	2025-04-21

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just be called the claimant on this one, if that's okay. I'm the driver of the car that was sideswiped.

Q: That works for the file. Can you tell me where the incident happened?

A: It was on a multi-lane road in Pasadena, Texas, in the right lane heading towrad a shopping center.

Q: What were you doing right before the contact?

A: I was changing lanes to the left because my exit was coming up. I checked my mirror, didn't see anything right beside me, and moved over slowly.

Q: What happened next?

A: The other vheicle came up alongside me and scraped the wohle passenger side of my car. I felt the steering wheel jerk and I had to grip it hard to keep control.

Q: Did you see the other driver's lane position before you moved?

A: Not really. They seemed to be right in my blind spot, and I didn't catch them there.

Q: Were you hurt at the scene?

A: My left wrist hurt right away, but I thought it was just a sprain. I was pretty shaken up.

Q: Did you seek medical care after the incident?

A: Yes. I went to urgent care that afternoon and they took X-rays. The doctor said the wrist was fractured and I was put in a splint.

Q: Has the wrist treatment changed since then?

A: I'm going to an orthopedic specialist next week. They told me I may need a follow-up scan.

Q: Is there anything else you'd like to add?

A: Only that I'm trying to get back to work and I'm worried about how long this will take to heal.
