Description of the accident (claimant's words)

I was changing lanes on a busy road in Pasadena, Texas, checking my mirror and signaling first, when a vehicle in the lane beside me moved over and clipped the side of my car. The contact pushed my car toward the median before I could steer back. I pulled onto the shoulder, and I have described it the same way each time I have spoken with anyone about it, from the scene to the adjuster. I am the named driver on this policy, and I was the only occupant in my vehicle. My left wrist struck the door frame during the impact, and I was taken for treatment where the doctors confirmed a fracture. I am providing this account so the claim can be reviewed from my side of events.
