Officer's narrative

Driver 1 was traveling in the left lane on a multi-lane roadway in Pasadena, Texas, when a sideswipe collision occurred as Driver 2 attempted to change lanes into the same space. Driver 1 reported pain in the wrist and was transported for evaluation. The wrist injury reported by Driver 1 is consistent with the forces expected from a collision of this type. Photographs taken at the scene confirm the general location of the vehicles and some of the reported contact points, and the damage visible on both vehicles matches the described impact. No independent witnesses were located, so the account rests on the statements of the drivers and the physical evidence. Officers and the parties present confirmed that Driver 1 was seated in the vehicle at the time of the collision, and a Passenger was also present in the vehicle. No prior damage to Driver 1's vehicle is known to responding officers or to the owner. Driver 1 is the named driver on the insurance policy covering the vehicle.
