Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Conroe, Texas, moving slowly with my brake lgihts on, when another vehicle came down the aisle and struck the rear quarter panel of my car. The impact jolted me forward against the steering wheel and then I twisted my right knee against the footwell as I braced myself. I styaed at the scene until the other driver and store staff had spoken with me, and I have repeated the same description of what happened to everyone who asked, including the adjuster and the medical staff. I am the named driver on this policy and was operating the vehicle with the owner's permission. My knee swelled within the hour and has been painful to bear weight on since, which is why I am submitting this claim for the injury and the repairs to my car.
