Claim Notes

Claim number:	C-1380
Claimant:	Ashley Lewis
Adjuster:	Jerry Hanson

April 17, 2023
Claim opened after a side impact at a signalized intersection; the claimant reports a wrist fracture and has retained counsel, so all further contact will go through the attorney's office.

May 11, 2023
Confirmed the driver is litsed on the policy and that coverage was active at the time of loss; no coverage questions remain open at this stage.

June 22, 2023
Obtained the police report, which places the claimant in the vehicle at the time of the collision and describes the impact as a side-on hit from the other vehicle's path.

July 1, 2023
Reviewed scene photos and two independent witness statements; both describe the accident the same way the claimant and the other driver have, with no conflicting details noted.

July 10, 2023
Vehicle inspection shows damage to the driver-side door and quarter panel that lines up with the reported point of impact; no prior damage to the vehicle is known from our records or the appraiser's findings.

July 17, 2023
Claimant's account has stayed consistent across the recorded call, the written statement, and the follow-up interview through counsel.

September 12, 2023
Medical records show a wrist fracture consistent in type and force with a side impact of this kind, and the physician's notes support the mechanism described.

September 30, 2023
Records also show treatment for the same wrist area within the past two years; the attending physician indicates that earlier condition contributes to some of the current complaints, and I am noting it for the file.

October 3, 2023
Treatment followed a typical course: immobilization, a follow-up procedure, then physical therapy, with the care tapering as the claimant's range of motion improved.

October 22, 2023
Nothing in the file suggests damage predating the policy's effective date; the vehicle history and prior claims search came back clean.

November 26, 2023
Sent the attorney the medical authorization forms and requested the complete treatment ledger, including the prior wrist records, to finish the evaluation.

December 11, 2023
Current evaluation: the injury and vehicle damage fit the reported collision, and the open items are the final bills and the prior-condition apportionment, which I will handle with the medical reviewer.

Recorded Statement

Claim number:	C-1380
Statement of:	Ashley Lewis
Taken by:	Jerry Hanson
Date:	April 22, 2023

Q: Thank you for taking the time to spaek with me today. This recorded statement concerns the collision at the intersection in Baytown, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please describe in your own words where you were driving and what you were doing just before the collision.

A: I was heading through the intersection on the green light. I had slowed a little because traffic ahead of me was backed up, but I was moving at a normal speed when I entered.

Q: Did you see the other vehicle before the impact?

A: Not until the last second. It came from my right side and I saw the front end of it appear at the edge of my window. I tried to brake, but there wasn't enough time.

Q: Where did your vehicle make contact with the other car?

A: On the driver's side, along the front door area. The other car struck my side and pushed my car sideways.

Q: Were you injured?

A: Yes. I put my left hand out to brace myself and I landed hard on my wrist against the steering wheel and door frame. I was taken to the emergency room, and they told me the wrist was fractured. I'm still in a splint and I have a follow-up appointment next week.

Q: Did you receive any treatment at the scene?

A: The paramedics checked my blood pressure and asked me questions. They wanted me to go to the hospital, and I agreed to go.

Q: Is there anything else you would like to add about the incident?

A: Only that I was following the traffic signal and I want to make sure my account is recorded accurately. Thank you.

Q: Thank you. This concludes the recorded statement.
