Appraiser remarks

The left rear quarter panel and rear door on the driver's side show deep crushing and creasing consistent with a side impact at a right-angle intersection, and the damage pattern lines up well with the account given. The repair plan calls for replacing the rear door shell, straightening the quarter panel, and refinishing both panels with blending into the adjacent section. Repair labor hours appear slightly high for this scope and should be reviewed against standard time guides. Shop invoices reviewed show no repeated charges. No prior damage to this vehicle is known from the file.
