Claim Notes

Claim number:	C-1384
Claimant:	Christina Ramirez
Adjuster:	Darin Tyler

2025-03-31
First notice of loss received from the insured's policyholder reporting a sideswipe while changing lanes on a multi-lane road. The claimant reports neck and back strain and is not represented by an attorney.

2025-04-27
Reviewed the policy and confirmed the driver is named on it and that coverage was in force at the time of the loss. Nothing in the file suggests any damage occurred before the coverage start.

2025-06-12
Photos taken at the scene confirm the general position of both vehicles and the contact area on the body panels. There are no independent witnesses to the lane change, so the account rests on the parties and the photos.

2025-07-18
Spoke with the claimant, who gave the same account of the lane change and impact as in the initial report. Asked about seating position in the vehicle at impact; the answer was not fully clear and will need follow-up.

2025-09-01
Reviewed the medical records. The reported neck and back strain fits well with the type and force of the collision. The records also note a minor strain in the same area several years ago that healed fully, which has been added to the file for context.

2025-09-06
Treatment has continued somewhat longer than is typical for this kind of injury. The treating provider's notes are being requested to undersatnd the course of care. It is not yet clear how much of the total damage came from this impact alone.

2025-10-06
No prior damage to the vehicle is known from the file or the repair history. Next steps are to obtain the full treatment notes, request the seating information again, and complete the damage review before setting a settlement position.

Recorded Statement

Claim number:	C-1384
Statement of:	Christina Ramirez
Taken by:	Darin Tyler
Date:	2025-03-09

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd prefer to keep my name off the recording for now, but I'm happy to answer your questions.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in Conroe, Texas, on the main road heading toward the shopping center. I was changing lanes to get into the right lane because my turn was coming up.

Q: What were the weather and road conditions like?

A: It was clear and dry. Traffic was moderate, nothing unusual for that stretch.

Q: Walk me through what happened as you moved over.

A: I checked my mirror, saw the lane looked open, and signaled. I started to move over slowly. Then I felt a bump on my side and heard scraping. The other car had come up alongside me in the lane I was entering.

Q: Did you see the other vehicle before you began your lane change?

A: Not directly. I looked in the mirror and didn't see anything close, but I may not have checked my blind spot as thoroughly as I should have.

Q: Did you stop or pull over after the contact?

A: Yes, I pulled onto the shoulder a short distance away. Both cars were still drivable, so we moved them out of the traffic flow.

Q: Were you injured?

A: Yes. My neck and lower back started hurting within an hour or so. It's a stiff, aching pain, and turning my head is uncomfortable.

Q: Have you sought medical care?

A: I went to a clinic the same day and was told I had strains in my neck and back. I've been doing home exercises and taking over-the-counter pain relievers.

Q: Is there anything else you'd like to add?

A: Only that I want to cooperate fully and get my car repaired. Thank you for your time.

Q: Thank you. This cocnludes the statement.
