| **Claim number:** | C-1386 |
| **Claimant:** | Kathleen Gamble |
| **Adjuster:** | Valerie Rodriguez |

02/10/2025
Claim opened after the claimant reported being rear-ended while stopped at a traffic light. The claimant is not represented by counsel, and I explained the claims process and what documents will be needed.

02/27/2025
Spoke with the other driver, who confirmed the vehicles made contact in the manner the claimant described. Photos taken at the scene are consistent with that account, and two independent witnesses gave matching statements.

03/11/2025
Reviewed the police report, whcih places the claimant in the vehicle at the time of the collision. The damage to the rear of the claimant's car appears largely in line with the impact described, and I found no record of earlier damage to the vehicle.

04/19/2025
Confirmed with the policyholder's records that the driver inovlved is a member of the household and is covered under the policy. The loss date falls within the active coverage period, and nothing in the file suggests the damage predates the policy start.

05/16/2025
Claimant reports a knee injury from the impact. The reported injury is plausible for a rear-end collision of this kind, and the claimant has no known prior injury to that area.

05/27/2025
Treatment has followed a typical course, with visits tapering as the claimant's knee improved. The claimant has given the same account of the accident in every conversation so far.

08/09/2025
Reviewed the treatment records and medical bills against the expected recovery timeline. The care provided is reasnoable for the injury reported, and no further action is needed beyond routine closure documentation.

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you were involved in in Conroe, Texas. Please state your full name for the record.

A: I'd rather just give you the facts, but fine. I'm the driver of the vehicle that was struck from behind.

Q: Understood. Can you walk me through what happened leading up to the impact?

A: I was stopped at a red light on a main road, waiting in the right lane. Traffic was moving pretty steadily, and I'd come to a full stop maybe a few seconds before it happened.

Q: Did you notice the other vehicle approaching?

A: Not really. I saw it in the mirror for a second, but I was looking ahead at the signal. Then there was a hard jolt from behind and my head snapped forward and back.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did your vehicle leave the lane or move at all after the impact?

A: It got pushed forward a little, into the intersection area, but I got it out of the way fairly quickly.

Q: Have you been seen by a medical provider since the collision?

A: Yes. I went to urgent care the same afternoon. My right knee hit the dashboard and it's swollen and painful. I've been using crutches for a few days, and the doctor ordered an MRI.

Q: Are you stlil experiencing pain or limited movement?

A: Yes. Stairs are difficult, and I can't stand for long periods. I've missed several days of work because of it.

Q: Thank you. Is there anything you'd like to add to your statement?

A: Just that I want my injuries documented accurately, and I'm willing to provide my medical records.

Q: Thank you. This concludes the recorded statement.
