Description of the accident (claimant's words)

I was making a left turn in Pearland, Texas, when another vehicle struck the side of my car. I had stopped at the intersection, waited for a clear gap in oncoming traffic, and started to turn when the impact came. My car spun a little before coming to rest, and the airbags did not deploy. I am the named driver on this policy, and I have kept the same account of what happened each time I have described it to the adjuster, the officer at the scene, and the people at the repair shop. I have been dealing with a neck strain since the collision. The pain is worst when I turn my head to check blind spots, and I have been seeing a doctor for physical therapy twice a week. I am asking the insurer to review the damage to my vehicle and the medical costs related to the injury.
