Claim Notes

Claim number:	C-1390
Claimant:	Bryan Malone
Adjuster:	Chelsea Hebert

7-20-24
Claim received today for a sideswipe that occurred while the insured's vehicle was changing lanes. The claimant is represented by counsel, and all further contact will go through the attorney's office.

8-11-24
Reviewed the policy and confirmed the driver involved is listed as a named driver with coverage in force at the time of loss. No coverage issues identified at this stage.

9-1-24
Obtained the initial statement from the claimant, who describes the other vehicle drifting into the adjacent lane and making contact along the driver's side. The account is consistent with the damage pattern noted at intake.

9-22-24
Witness statements and scene photographs were collected. Both witnesses and the other driver independently describe the collision as the claimant described it.

10-3-24
Inspected the vehicle and documented the damage. Most of the damage lines up with the impact described, with the principal deformation along the side panels and the mirror assembly. No prior damage to the vehicle is known from our records or the owner's history.

10-23-24
The claimant reports a knee injury from the collision. The type of injury and the force involved in the crash appear to match well. No prior injury to the same area is known from the medical history provided.

10-25-24
Received a supplemental statement from the claimant adding minor details about the moments before impact. These additions are small, and the core account has remained unchanged across all statements.

12-5-24
Treatment records show a usual course of care for the knee, with symptoms easing steadily as the claimant improved. Care has tapered off in line with recovery. It is not fully clear from the statement where the claimant was seated in the vehicle at impact, and I have asked counsel to clarify.

1-6-25
A neighbor has told the field representative they believe the vehicle had already been damaged some weeks before the stated date of loss. This is unverified and is being followed up, including a review of repair and photo history.

3-9-25
Reviewed the file with the neighbor's comment and the available records. The neighbor's recollection has not been substantiated by any documents to date, and the claim remains open pending the seating position clarification and the prior-damage check.

Recorded Statement

Claim number:	C-1390
Statement of:	Bryan Malone
Taken by:	Chelsea Hebert
Date:	7-22-24

Q: Good morning. This is the adjuster following up on the claim you reported. This recorded statement is for claim file purposes. Do you understand and consent to being recorded?

A: Yes, I understand and I consent.

Q: Thank you. Please tell me in your own words what happened on the day of the collision.

A: I was driving in the right lane on the main road in Pasadena, Texas, heading toward the freeway on-ramp. I wanted to move into the left lane to get ready for my exit. I checked my mirror, saw nothing close, and signaled. As I started to merge, the other car came up quickly in that lane and its side scraped mine.

Q: Did you see the other vehicle before you began your lane change?

A: Not clearly. I glanced at my mirror and didn't see it, but I think it may have been in my blind spot or coming up fast behind a truck.

Q: Were you able to stop or steer away after contact?

A: I pulled to the shoulder right away. My car kept drifting for a second, and I hit the brakes hard.

Q: You mentioned an injury. Can you descrbie it?

A: My right knee hit the dashboard when we made contact. It swelled up pretty fast, and it hurts when I bend it or put weight on it. I went to urgent care that same afternoon.

Q: Are you currently receiving treatment or taking any medication for the knee?

A: I'm seeing a physical therapist twice a week, and I take over-the-counter pain relievers when it gets bad.

Q: Did anyone else ride in your vehicle at the time?

A: No, I was alone.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: No, I think that covers it. Thank you for calling.

Q: Thank you. This concludes the recorded statement.
