Bodily Injury Unit

Claim Notes

Claim number:	C-1392
Claimant:	Jaclyn Watson
Adjuster:	Jerry Hanson

2 Aug 2024
First notice of loss received for a low-speed collision in a parking lot. The insured reports that another vehicle backed into the rear of their car while it was parked, and the claimant was seated inside at the time.

26 Oct 2024
Confirmed that the driver is named on the policy and that coverage was in force when the incident occurred. Nothing in the file suggests the damage predates the policy start.

6 Nov 2024
Obtained the police report and two witness statements, which describe the collision the same way the insured did. Photos taken at the scene show the damage is consistent with the reported impact, and the other driver has also confirmed the account.

13 Nov 2024
Reviewed the vehicle damage estimate. The rear bumper, tailgate and taillight damage lines up with the described point of impact, and no prior damage to the vehicle is on record.

21 Nov 2024
Claimant's counsel submitted a demand reporting neck and back strain. The claimant has given the same account of the accident in every conversation so far, and the police and witnesses confirm they were in the vehicle at the time.

1 Dec 2024
Medical records show treatment following a typical course for soft tissue strain, with care tapering as the claimant improved. No prior injury to the neck or back is known, and the reported injury is plausible for a collisoin of this type.

16 Mar 2025
Reviewed the file with supervisor. Liability and coverage are confirmed, the injury is consistent with the mechanism of the collision, and the claim is moving forward for evaluation of the bodily injury portion.

Recorded Statement

Claim number:	C-1392
Statement of:	Jaclyn Watson
Taken by:	Jerry Hanson
Date:	25 Jul 2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my full name on a recording, so you can just note that I'm the passenger in the vehicle.

Q: That's fine. Can you tell me where you were when the collision happened?

A: We were in a parking lot in Houston, Texas, at a shopping center. The driver was backing out of a space when another car came through the lane.

Q: Were you wearing a seatbelt?

A: Yes, I was.

Q: What happened next?

A: The impact was on the rear passenger side. It wasn't a huge crash, but my body jerked forward and then back against the seat. The driver hit the brakes hard and I felt my head snap.

Q: Did you feel any pain immediately afterward?

A: Not right away. Within an hour my neck was stiff and my lower back started aching. By the next morning it was hard to turn my head to check my blind spot.

Q: Have you sought medical care?

A: Yes, I went to an urgent care clinic that same day. They examined me, took some X-rays, and diagnosed a neck and back strain. They gave me muscle relaxers and told me to follow up with a physical therapist.

Q: Have you had any prior injuries to your neck or back?

A: No, nothing serious. I had some general soreness from lifting boxes at work once in a while, but nothing I'd ever treated.

Q: Is there anything else you'd like to add?

A: Only that I'm still in pain and missing some work because of it. I'd like the claim to reflect that.

Q: Thank you. This concludes the statement.
