### Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my right ran its red and struck the passenger side of my car. The impact spun my car partly aruond and pushed it toward the curb. I heard the crash before I felt the pain, and when I looked down my left wrist was already swelling and bent at an odd angle. A bystander called for help while I sat there holding my arm. I have given this same account to the officer at the scene, to the ambulance crew, and to the emergency room staff, and I have not changed any detail since. I am the named driver on this policy and I was the only person operating the vehicle at the time. I am submitting this claim for the wrist fracture and the damage to my vehicle.
