| **Claim number:** | C-1404 |
| **Claimant:** | Joshua Lee |
| **Adjuster:** | Jerry Hanson |

8 Jun 2023
Claim opened on a sideswipe during a lane change. The insured reported that the ohter vehicle drifted into their lane as they were merging, and the claimant's representing attorney has requested that all contact go through their office.

1 Jul 2023
Reviewed the policy and confirmed the driver is listed as a named driver and the vehicle was covered at the time of loss. Damage to the vehicle is consistent with the reported impact, and the police report, scene photos, and the other driver's statement all describe the collision the same way.

13 Sep 2023
Police and independent witnesses confirm the claimant was in the vehicle at the time of the collision. The claimant's account has stayed the same in every conversation so far, including the initial recorded statement and the follow-up call through counsel.

29 Sep 2023
Medical records describe a neck strain, which fits the type and focre of a side impact of this kind. No prior treatment to the neck or upper back appears in the records we have obtained so far.

9 Nov 2023
Treatment followed a typiacl course, with physical therapy that tapered as the claimant's symptoms improved and the treating provider noted steady progress. A neighbor mentioned seeing the vehicle with prior body damage several weeks before the claimed date, so I am following up on that comment to see whether it can be verified or ruled out.

23 Jan 2024
No earlier damage to the vehicle is recorded in our files or in prior claim history, and the repair estimate matches the damage shown in the photos. Pending the outcome of the neighbor follow-up, the file remains open with the injury evaluation in progress.

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just give my statement without my name on it, if that's okay.

Q: That's fine for this test file. Can you tell me where the accident happened?

A: It was on a multi-lane road in Pasadena, Texas, near a shopping center. I was in the rihgt lane heading toward the interchange.

Q: What time of day was it, and what were the road conditions?

A: Mid-afternoon. It was dry, and traffic was moving steadily but not stopped.

Q: Walk me through what you were doing when the contact happened.

A: I was signaling to move into the left lane bceause I needed to get over for my exit. I checked my mirror, saw the lane looked clear, and started to merge. Then the other car came up beside me and clipped the side of my vehicle.

Q: Did you see the other vehicle before you began to change lanes?

A: Not clearly. I glanced at my mirror and didn't see anything close enough to worry about.

Q: How fast were you each going?

A: I'd estimate around the speed limit, maybe a little under. I'm not certain about the other driver's speed.

Q: Did the other driver stop, and did you exchange information?

A: Yes, they pulled over just ahead. We exchanged insurance and contact details, and I took a few photos of the damage.

Q: Did you feel any injury at the scene?

A: My neck felt stiff rgiht away, and by that evening I had pain across the back and sides of my neck. I went to a clinic the next day and was told I had a neck strain.

Q: Are you currently receiving treatment?

A: Yes, I'm going to physical therapy a few times a week, and my doctor has me on a light work restriction for now.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm trying to cooperate fully and I'll send over any records you need.

Q: Thank you. This concludes the recorded statement.
