A: It was at an intersection in Katy, Texas. I was turning left across the lanes to get into a shopping center.

A: I had stopped at the light, waited for the oncoming traffic to clear, and then started my turn when the signal allowed it.

Q: What happened next?

A: A vehicle coming from the opposite direction hit the front driver's side of my car. I didn't see it coming until right before it struck.

Q: Were you wearing your seatbelt?

A: Yes, I was. The airbags deployed, and I was pushed against the seat and the door.

Q: Did you receive medical attention?

A: I was taken to an uregnt care clinic that evening. They checked my neck and lower back and said I had strains.

Q: Describe your symptoms since the collision.

A: My neck is stiff, and turning my head to the left is painful. My lower back aches when I sit for long periods. I've been taking over-the-counter pain relievers and usnig a heating pad.

Q: Have you missed any work because of these injuries?

A: I've been off for a few days and I'm working modified duties now. I'm still seeing my doctor for follow-up appointments.

A: Only that I'm cooperating fully and I'd like to know what the next steps are for my claim.

Q: Thank you. We'll be in touch with you about those next steps.

A: Thank you.
