Reported injury:	neck and back strain

Description of the accident (claimant's words)

I was making a left turn at an intersection in Katy, Texas, when another vehicle struck the side of my car. I had been waiting for a gap in oncoming trfafic and had my signal on before I started to move. Right afetr the impact I felt a sharp pain across my neck and lower back, and I stayed in the driver's seat until the emergency crew arrived. Since then I have gone back over what happened several times, and I have remembered a few small details, such as the color of the other car's bumper and where the traffic light was. Those additions do not change the core of my account, which I have kept the same from the start. I am the nmaed driver on this policy and I am submitting this statement so the claim can be reviewed.
