Officer's narrative

Driver 1 was traveling in the left lane of a multi-lane roadway in Katy, Texas, when Driver 1 moved toward the right lane and made contact with the side of a vehicle operated by Driver 2. The contact was a sideswipe, and both vehicles came to rest on the shoulder. Responding officers spoke with Driver 1, Driver 2, and two independent witnesses, all of whom described the collision in the same sequence. Photographs taken at the scene show damage along the right side of Driver 1's vehicle and the left side of Driver 2's vehicle, consistent with the reported impact. Driver 1 is listed on the auto policy for the vehicle involved. A Passenger was seated in Driver 1's vehicle at the time, and both the witnesses and the officers confirmed the Passenger's presence. No prior damage to either vehicle was noted in the records reviewed. Driver 1 reported a wrist fracture and was transported for evaluation. At this time it is not clear whether the reported injury resulted from this collision, and the medical findings will need to be reviewed before a determination is made.
