Bodily Injury Unit

Claim Notes

Claim number:	C-1413
Claimant:	David Anderson
Adjuster:	Alison Sweeney

2024-10-12
Claim opened after the insured reported a rear-end collision at a signalized intersection. The driver is named on the policy, and the claimant's vehicle was the one struck from behind.

2024-11-16
Police report received and reviewed. It confirms the claimant was in the vehicle at the time of impact, and it matches the account given by the insured.

2024-11-26
Photos from the scene and the repair shop show the rear bumper damage and the point of contact. They confirm some of the details reported, but there are no independent witnesses to the impact itself.

2024-12-06
Vehicle inspection completed. No earlier damage to the vehicle is known from prior claims or repair records, and nothing suggests the damage occurred before the coverage period began.

2025-02-01
Claimant's representing attorney contacted the desk and advised that the claimant has neck and upper back pain consistent with whiplash. Medical records requested.

2025-02-04
Medical records reviewed. The reported injury is plausible for a collision of this type, and no earlier injury to the same body area is known from the records received so far.

2025-03-17
The claimant has told the same account of the collision in every conversation with the adjuster and the attorney, with no material changes in the sequence of events.

2025-03-20
Repair estimate reviewed. Some of the listed damage appears to be in areas that may not have been affected by this impact, so it is not clear yet whether all of the damage came from this collision. Requested a supplemental inspection.

2025-04-20
Treatment records show a usual course of care, with treatment frequency reducing as the claimant's symptoms improved. Treating provider notes indicate steady progress.

2025-04-27
File remains open pending the supplemetnal inspection results and final treatment records. Next review scheduled once those documents are received.

Recorded Statement

Claim number:	C-1413
Statement of:	David Anderson
Taken by:	Alison Sweeney
Date:	2024-10-13

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're comfortable with that?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened on the day of the accident in Baytown?

A: I was stopped at a red light on the main road, heading toward the freeway. I had been there for a few seconds when I felt a hard jolt from behind. My head sanpped back and then forward.

Q: Were you able to see the vehicle that hit you before the impact?

A: No. I was looking at the light and my mirror, and I didn't see it coming. It was going pretty fast, I think.

Q: Did you get out of your car and speak with the other driver?

A: Yes, we both got out. He said he looked down at his phone for a moment and didn't brake in time. He seemed apologetic.

Q: Did you have any injuries at the scene?

A: I had a stiff neck and some pain across my shoulders, but I figured it would wear off. By that evening it was much worse.

Q: Have you sought medical treatment since the accident?

A: Yes, I went to an urgent care clinic the next morning and then started physical therapy. The doctor diagnosed whiplash and gave me a neck brace for a few weeks.

Q: Are you still experiencing symptoms?

A: Yes. I get headaches most days, and turning my head to the left is painful. I've had to take some time off work because sitting at my desk for long periods makes it worse.

Q: Is there anything else you think I should know about the accident or your injuries?

A: Not that I can think of. I'm just hoping to get back to normal soon.

Q: Thank you for your time. We'll be in touch with next steps.

A: Thanks, I appreciate it.
