Claim Notes

Claim number:	C-1416
Claimant:	Jessica Gordon
Adjuster:	Darin Tyler

17 Jul 2024
Claimant reported a rear-end collision at a low-speed intersection and said she felt neck and upper back discomfort within the hour. She is not represented by counsel and confirmed she is willing to speak with me directly.

8 Aug 2024
Reviewed the policy file and confirmed the driver is named on the policy and the coverage was in force at the time of loss. Nothing in the underwriting file suggests the vehicle damage predates the coverage start.

28 Oct 2024
Photos submitted by the claimant show damage to the rear bumper and trunk that is consistent with the impact described. A few old scratches are visible on the lower panel, which may be older than this crash and will be noted for the appraiser.

25 Nov 2024
Police report and two drivers' statements place the claimant in the vehicle at the time of the collision. No independent witnesses were located, so the account rests on the parties' statements and the physical evidence.

30 Nov 2024
Spoke with the claimant again and she gave the same account of how the collision happened, including speed, direction, and sequence of events. Her description has not changed across each conversation so far.

8 Jan 2025
Medical records show a back strain, which matches the kind and force of a rear impact of this type. No prior injury to the same body area is known from her records or from questions asked during intake.

16 Feb 2025
Treatment followed a usual course of physical therapy and tapered off as her symptoms improved, with discharge notes recording steady progress. Reserves will be reviewed against the current treatment status and final medical bills.

Recorded Statement

Claim number:	C-1416
Statement of:	Jessica Gordon
Taken by:	Darin Tyler
Date:	25 Jun 2024

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim file purposes. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened on the day of the accident?

A: I was stopped at a red light on a main road in Sugar Land, in the right lane. Traffic had been moving slowly. The next thing I knew, I felt a hard jolt from behind and my head snapped back against the headrest.

Q: Did you see the vehicle coming before the impact?

A: No. I was looking ahead at the light. I heard tires and then the impact.

Q: Were you able to get out of your car afterward?

A: Yes, but I felt stiff. Within an hour my lower back was really tight and sore, and by that evening it was shooting pain down my left leg.

Q: Did you seek medical attention?

A: I went to an urgent care clinic the next morning. They took x-rays, said there was no fracture, and diagnosed a back strain. They gave me muscle relaxers and told me to rest and do stretching.

Q: Are you still having symptoms?

A: Yes. I still get stiffness when I sit for long periods, and I've had to cut back on lifting at work. I have a follow-up with my primary care doctor next week.

Q: Did you have any pain or problems with your back before this accident?

A: I had some occasional stiffness after long shifts, but nothing that stopped me from working or needed treatment.

Q: Is there anything else you'd like to add?

A: Just that I'm trying to get back to normal and I want the claim handled fairly.

Q: Thank you. We'll be in touch with next steps. This concludes the recorded statement.
