Officer's narrative

Officer narrative: On arrival in Sugar Land, Texas, I found a rear-end collision involving two vehicles. Driver 1 was stopped in the travel lane when the vehicle operated by Driver 2 struck the rear of the stopped car. Driver 1 reported pain in the lower back and said the impcat pushed them forward against the seatbelt before rebounding into the seat. The severity of the impact appears consistent with that account. Driver 1 is listed as the named insured on the policy covering the vehicle. A Passenger was also present in the front seat, and both the statements of the drivers and the other occupant confirm that Driver 1 was inside the car at the time of impact. Damage to the rear bumper and trunk of Driver 1's vehicle matches the direction and force described by both drivers. Photographs taken at the scene confirm the general layout and damage, though no independent witnesses came forward. Some older faint scratches were noted on the rear panel, which may predate this collision and will need to be reviewed separately. Driver 2 was cooperative and provided insurance information at the scene.
