Description of the accident (claimant's words)

I was making a left turn at an intersection in Sugar Land, Texas, when another vehicle struck the side of my car. I had the green light and was moving slowly through the turn when the impact came, pushing my vehicle forward and into the curb. My right knee hit the dashboard and I felt sharp pain almost immediately. I have been the named driver on this policy for the entire time the vehicle has been insured, and I have kept the same account of events since the accident. Later I remembered a few smaller details, such as the other car's position in the lane, but these additions did not change the core sequnece of what happened. I sought medical attention for the knee injury the same day.
