## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1419 |
| **Claimant:** | William Johnson |
| **Adjuster:** | Christopher Wong |

2023-02-14
Claim opened after the claimant reported a low-speed collision in a parking lot while backing out of a space. The claimant is unrepresented and has provided a contact number for follow-up.

2023-02-24
Reviewed the police report, which places the claimant in the vehicle at the time of the impact and describes the collision as reported. Confirmed that the driver is listed on the policy and that coverage was in force on the date of loss.

2023-04-19
Spoke with the claimant, who described the same sequence of events as in the initial call. The account of how the vehicle moved and where the impact occurred has not changed.

2023-05-08
Obtained statements from two witnesses who saw the vehicles make contact in the lot. Both confirmed the accident happened as the claimant described it.

2023-05-24
Received photographs from the scene and from the body shop. The daamge to the rear bumper and tailgate lines up with the impact described and with the other driver's account.

2023-06-18
Contacted the other driver, who confirmed the collision occurred as reported and did not dispute the sequence of events.

2023-06-30
Checked the vehicle history and prior repair records. No earlier damage to the vehicle is known, and nothing suggests the damage predates the start of coverage.

2023-07-07
Claimant reports neck pain and stiffness following the collision and was seen at urgent care the same day. The kind and force of the impact fit the reported symptoms well.

2023-07-13
Medical records show the claimant was treated for neck complaints within the past two years. That earlier condition is adding to the current symptoms, so the prior history has been noted for the evaluation.

2023-07-14
Treatment followed a usual course of care, including physical therapy and medication. Recent notes show steady improvement, and the frequency of visits has tapered as expected.

2023-08-14
Reviewed the current treatment plan with the claimant, who confirmed the same account of the accident and her symptoms in each contact so far. No inconsistencies have been found in the file.

2023-09-15
Based on the records, witness statements, photos and vehicle damage, the claim is progressing normally. Remaining items are the final treatment summary and the bills for review.

|---|---|
| **Claim number:** | C-1419 |
| **Statement of:** | William Johnson |
| **Taken by:** | Christopher Wong |
| **Date:** | 2023-02-12 |

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just be called the claimant on this one, if that's alright.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was in a parking lot at a shopping center in Pasadena, Texas. I'd just pulled into a spot near the back row, pretty slowly.

Q: What happened next?

A: I was backing out to leave and I heard a horn. Then another car came around the end of the row and clipped the rear quarter panel of my vehicle.

Q: Was your vehicle moving at the time of impact?

A: Yes, I was reversing at maybe walking speed. I stopped as soon as I felt the bump.

Q: Did the other driver stop?

A: Yes, they stopped and got out. We exchanged information right there.

Q: Did you feel any injury at the scene?

A: Not right away. I felt fine for maybe twenty minutes, then my neck started to stiffen and a headache came on.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to urgent care that evening, and I've been seeing a physical therapist since. They told me I have whiplash.

Q: Are you currently experiencing any symptoms?

A: Yes, I have neck pain, especially when I turn my head to the left, and some stiffness in my upper back.

Q: Have you missed any time from work?

A: I missed about four days, and I've been doing lighter duties since then.

Q: Is there anything else you think I should know about the incident?

A: Only that I'm still going to physical therapy twice a week, and I'd like to get this resolved so I can get back to normal.

Q: Thank you. That concludes the statement.

A: Thanks.
