Reported injury:	neck and back strain

Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Houston, Texas, moving slowly, when the other vehicle came around the end of the row and struck the rear corner of my car. Both of us stopped right away and exchanged information. My neck and lower back felt strained within the hour, and I have been dealing with stiffness and soreness since then. I have told the adjuster the same account each time we have spoken, though I have remembered a few smaller details since the first conversation, such as where the other car was angled and how quickly it seemed to be moving. I am the named driver on this policy and I am submitting this statement so the claim can be reviewed.
