Claim Notes

Claim number:	C-1423
Claimant:	Kelly Romero
Adjuster:	Chelsea Hebert

9-22-24

Claim opened after the insured reported a collision at an intersection while turning left, with the claimant's vehicle struck on the driver side. The claimant reports a knee injury and has no legal representation at this stage.

11-13-24

Photos from the scene confirm the damage pattern and show the vehicle's front end and side panels consistent with the reported impact. No independent witnesses have come forward, so the photos are the main visual record at this point.

11-30-24

Police report lsits the claimant as an occupant of the vehicle, and the statements of the other parties agree on that point. The driver is named on the policy, and nothing so far suggests the damage predates the coverage start.

1-25-25

Claimant gave the same account of the collision in each contact so far, describing the left turn and the moment of impact in matching detail. Vehicle inspection found no earlier damage on record, and the repair estimate lines up with the impact described.

2-3-25

Medical records show a knee injury that fits the kind and force of the crash. No prior injury to the same body area is on file. Treatment followed a typical course and tapered off as the claimant improved.

3-15-25

Based on the photos, police report, medical records, and consistent statements, the claim appears to be supported by the available evidence. File remains open for final review of the treatment billing and the repair invoice.

Recorded Statement

Claim number:	C-1423
Statement of:	Kelly Romero
Taken by:	Chelsea Hebert
Date:	9-18-24

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, but you can note that I was the driver of the vehicle.

Q: That's fine. Can you tell me where the collision happened?

A: It was at an intersection in League City, Texas. I was turning left, heading toward a shopping center.

Q: What was the traffic signal doing when you started your turn?

A: The light had turned yellow, and I was trying to clear the intersection before it changed. I believe the oncoming vehicle was already coming through.

Q: Did you see the other vehicle before impact?

A: Not clearly. I looked, but the glare from the sun was bad that morning, and I only saw it a secnod before we hit.

Q: How fast were you going when you began the turn?

A: I'd say slow, maybe ten or fifteen miles per hour. I was almost at a stop in the turn lane.

Q: Where did your body make contact with the vehicle?

A: My left knee struck the lower part of the dashboard and console area when the airbag deployed and I was thrown forward.

Q: Have you sought medical treatment since the accident?

A: Yes. I went to an urgent care clinic that afternoon, and I've been scheduled for an MRI and a follow-up with an orthopedic specialist.

Q: Are you still experiencing pain or limited movement in the knee?

A: Yes. It swells when I stand for long periods, and I can't fully bend it. I've been using crutches for a few days.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm cooperating fully and I'll send any medical records you request.

Q: Thank you. This concludes the statement.
