Claim Notes

Claim number:	C-1425
Claimant:	Kyle Williams
Adjuster:	Chelsea Hebert

May 12, 2023
Claim received for a side impact at an intersection involving our insured vehicle. The claimant is represented by counsel, so all further contact is being routed through the attorney's office.

May 20, 2023
Reviewed the police report and statements from two witnesses, who both describe the collision as occurring just as the claimant reported it. The other driver also confirms the sequence of events, and the claimant's account has matched across every conversation so far.

July 10, 2023
Photos of the vehicle show damage consistent with the described impact angle and force. A few older scratches are visible, though they may predate this crash and are being noted separately.

September 26, 2023
Confirmed through the police record and witness accounts that the claimant was in the vehicle at the time of the collision. The driver is listed by name on the policy, and nothing in the file suggests the damage occurred before coverage began.

October 1, 2023
The reported whiplash is a plausible injury for a collision of this type. Medical records show no prior injury to the same area of the body. Treatment followed a typical course and tapered off as the claimant improved.

December 5, 2023
Reviewed the full file with the claim supervisor. Liability and vehicle damage align with the reported facts, and the injury claim is proceeding through standard evaluation with counsel.

Recorded Statement

Claim number:	C-1425
Statement of:	Kyle Williams
Taken by:	Chelsea Hebert
Date:	April 29, 2023

Q: Thank you for taking the time to speak with me today. This recording is for claim review purposes. Can you confirm you are comfortable continuing?

A: Yes, that's fine.

Q: Please describe in your own words where the collision took place.

A: It was at a four-way intersection in Houston, Texas. I was heading through on the green light, going straight across.

Q: Which direction were you traveling, and what did you see before impact?

A: I was going east. The light had been green for a little while. I saw the other car coming from my right, and it looked like it was going to run the red. I tried to brake but there wasn't enough time.

Q: Where did the other vehicle strike your car?

A: On the driver's side, the front part of their car hit my door area. My car spun a little and stopped near the curb.

Q: Did you feel any injuries right after the crash?

A: Not right away, I was shaken up. By the next morning my neck was stiff and hurt when I turned my head. I also had pain going up into the back of my head.

Q: Have you sought medical care since the accident?

A: Yes, I went to an urgent care clinic the same week, and I've been seeing a physical therapist twice a week since then. They said it looks like whiplash.

Q: Have you missed any work because of your symptoms?

A: I missed a few days and had to change some of my duties afterward because I can't sit at my desk for long periods.

Q: Is there anything else you would like to add to your statement?

A: No, I think I've covered it. I just want to get my car fixed and get my neck feeling normal again.

Q: Thank you. That concludes the recorded statement.
