### Officer's narrative

Officers responded to a report of a two-vehicle collision in a commercial parking lot in Houston, Texas. Upon arrival, the vehicles were stationary with visible front-end damage to Driver 1's vehicle and rear-quarter damage to Driver 2's vehicle. The damage pattern was consistent with the impact described by both drivers. Driver 1 stated that Driver 2 reversed into the front of the vehicle while Driver 1 was proceeding slowly through a parking aisle. Driver 2 acknowledged the contact and did not dispute the sequence of events. Two independent witnesses on scene gave statements matching this account, and photographs taken at the scene were reviewed. Officers confirmed that Passenger was seated in Driver 1's vehicle at the time of impact. Driver 1 reported pain in the left knee, which was observed to be swollen, and was evaluated by emergency medical personnel. Driver 1 presented proof of insurance listing Driver 1 as a named driver on the policy. No prior damage to the vehicle was reported or observed.
