Claim Notes

Claim number:	C-1428
Claimant:	Gregory Hopkins
Adjuster:	Alison Sweeney

10-28-23

Rear-end collision reported at a signalized intersection; insuerd vehicle was struck from behind while stopped, and the at-fault driver's carrier has been notified. Claimant is represented by counsel, and all further contact is being routed through the attorney's office.

11-22-23

Reviewed the scene photos and statements from two independent witnesses, who both describe the impact and sequence of events the same way the claimant and the other driver did. The vehicle damage to the rear bumper and trunk area is consistent with the described impact.

4-16-24

Confirmed the driver involved is listed on the policy and that coverage was in force at the time of loss. No prior damage to the vehicle is on file, and nothing in the records points to earlier impact or pre-existing body damage to the vehicle.

4-22-24

Claimant's medical records were received showing a wrist fracture, which is a plausible injury for this type of impact. The treatment course followed a usual pattern and tapered as the claimant improved. A prior records check shows a minor strain in the same general area years ago that resolved fully with no lasting effects.

4-26-24

Claimant's attorney provided a written account that adds some small details not in the first recorded statement, though the core account of the collision has stayed consistent across all statements. Seating position in the vehicle at impact is not fully clear from the records and will be clarified in a follow-up interview.

5-28-24

Spoke with counsel to request the follow-up interview on seating position and to confirm the timeline of treatment. Counsel indicated the claimant will attend within the next two weeks and that updated treatment notes will be forwarded.

6-1-24

Reviewed the file with the injury evaluation and damage estimate in hand. Claim remains open pending the follow-up interview and receipt of updated treatment records, with no current indication of any coverage issue.

Recorded Statement

Claim number:	C-1428
Statement of:	Gregory Hopkins
Taken by:	Alison Sweeney
Date:	10-17-23

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on this recording, so just call me the driver of the gray sedan.

Q: That's fine. Can you tell me where you were when the collision occurred?

A: I was stopped at a red light on a main road in Pasadena, Texas, in the right-hand lane.

Q: What happened next?

A: The light was red and I had been sitting there for a few seconds. Then I felt a hard impact from behind. My head snapped forward and my car was pushed into the intersection.

Q: Did you see the other vehicle before the impact?

A: No. I was looking at the light and I didn't check my mirror. I only heard the brakes at the last second.

Q: Were you able to get out of your vehicle?

A: Yes, but my left arm hurt badly. I held my wrist against my chest while I waited for the ambulance.

Q: Where were you taken for treatment?

A: I was taken by ambulance to a local hospital. They took X-rays and told me the wrist was fractured. I now have a cast and I've been told I may need a follow-up with a hand specialist.

Q: Did you notice any other injuries?

A: My neck and upper back were stiff the next morning, and I had a headache for several days.

Q: Has anyone else been in contact with you about the accident?

A: Only a tow company and the police officer who came to the scene.

Q: Is tehre anything you would like to add to your statement?

A: Only that I was stopped and waiting for the light when this happened. I'd like my repair and medical costs to be handled promptly.

Q: Thank you. This concludes the statement.

A: Thank you.
