Claim Notes

Claim number:	C-1430
Claimant:	Connie Davis
Adjuster:	Darin Tyler

15 Jun 2023
Reported a low-speed collision in a shopping center parking lot. The claimant said a vehicle backed into their driver's side while they were stopped in a parking space, and they went to hospital afterward with head pain and dizziness.

26 Jul 2023
Spoke with the claimant by phone. They are handling the claim themselves and have not retained a lawyer. They gave the same account of the impact as in the first report and said they were in the driver's seat when it happened.

6 Aug 2023
Contacted the other driver, who confirmed the vehicles touched while the claimant's car was parked and that they exchanged information on the spot. Their description of the contact matches what the claimant reported.

28 Aug 2023
Reviewed the photos submitted by the claimant and the scene photos from the store's security team. The paint transfer and bumper damage are consistent with a rear-quarter impact at low speed.

25 Sep 2023
Police report received. The responding officer recorded the claimant in the vehicle at the scene and noted two independent witnesses who saw the contact. Both witnesses' sattements agree with the claimant's account.

28 Sep 2023
Inspected the claimant's vehicle. The visible damage is largely in line with the impact described, and I found nothing suggesting earlier body work on the affected panels.

11 Oct 2023
Medical records received. The diagnosis is a concussion, which fits the nature and force of the collision. The treatment followed a typical course, with follow-up visits tapering as symptoms improved.

17 Nov 2023
A neighbor contacted our office and stated the car showed damage a few weeks before the reported date. I have asked for a written statement and any photos or repair records that would show the vehicle's condition at that earlier time.

7 Dec 2023
Checked the policy. The driver involved is listed on it. No prior injury to the same area of the head or neck appears in the medical history provided, and I am continuing to review the neighbor's information before a decision on the claim.

Q: Thanks for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident and my injuries, if that's okay.

Q: That's fine. Can you describe where the collision happened?

A: It was in a parking lot in League City, Texas, at a shopping center. I was pulling out of a parking space near the front entrance.

Q: What were you doing right before the impact?

A: I had checked my mirror, saw nothing behind me, and started backing out slowly. I was going maybe five miles an hour.

Q: Did you see the other vehicle at any point?

A: Not until right before it hit my rear passenger side. It came down the aisle fairly fast, I think, and I didn't have time to react.

Q: Did you stop after the impact?

A: Yes, I put the car in park right away. The other driver got out and came over to check on me.

Q: Did you notice any injuries to yourself at the scene?

A: My head snapped forward and then back against the headrest. I felt dizzy and had a ringing in my ears. I didn't think much of it at first.

Q: When did you first seek medical care?

A: I went to an urgent care clinic that evening becuase the headache got worse. They sent me for a scan and told me I had a concussion.

Q: Have you had any symptoms since then?

A: Yes. I still get headaches in the afternoon, I have trouble concentrating at work, and birght lihgts bother me. My doctor has me on rest and reduced screen time.

Q: Have you missed any work because of this?

A: I've been out part of the week and working shortened days the rest of the time. I'm stlil working with my doctor on when I can go back full time.

Q: Is there anything else you'd like to add?

A: Only that I want my records to show how much this has affected my daily routine. Thank you.
