Injuries reported:	neck and back strain
Investigating officer:	Officer Jacob Johnson, Badge 1040

Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Michael Townsend
Vehicle 2	Driver	Caleb Rich

Officer's narrative

Driver 1 was traveling in the rgiht lane on a Sugar Land, Texas roadway when Driver 2, operating a vehicle in the adjacent lane, began to change lanes without a sufficient view of the vehicle beside them. The two vehicles made contact along their passenger-side and driver-side panels, and Driver 2's vehicle pushed Driver 1's vehicle toward the shoulder before both came to rest. Driver 1 and a Passenger were present in the vehicle at the time, and responding officers and independent witnesses at the scene confirmed their presence. Driver 1 reported neck and back strain shortly after the collision and was evaluated at the scene. The damage visible on Driver 1's vehicle is consistent with the side-impact described by the parties, and the injuries reported are consistent with the force of a lateral collision of this kind. Driver 2 acknowledged the lane change and did not dispute the sequence of events. Witness statements and photographs taken at the scene support the account given by both drivers. No prior damage to Driver 1's vehicle was known to the responding officers or reported by any party. Driver 1 is listed as a named insured on the policy covering the vehicle involved. Based on the information gathered, the reporting officer has documented this incident as a sideswipe collision during a lane change.
