Claim Notes

Claim number:	C-1433
Claimant:	Patricia Reed
Adjuster:	Valerie Rodriguez

11/01/2024
First notice of loss received for a low-speed head-on collision. The claimant reports neck pain consistent with whiplash and states they are not reprseented by an attorney.

11/30/2024
Police report and two independent witnesses confirm the collision occurred as described, and the other driver's statement matches. Scene photos show damage mostly in line with the described impact speed.

12/22/2024
Claimant is named on the policy and was confirmed by the police report as the driver in the vehicle at the time. No prior damage to the vehicle is known, and nothing in the file suggests the damage predates the policy start.

02/03/2025
Claimant gave the same account of the collision in each conversation so far. No prior injury to the neck or upper back is known from the records reviewed.

03/16/2025
Reported whiplash symptoms are plausible for an impact of this type. Treatment followed a usual course, with visits tapering as the claimant reported steady improvement.

03/25/2025
Claim reviewed against all available evidence. Injury and vehicle damage both fit the described collision, and the file is ready for settlement review.

Recorded Statement

Claim number:	C-1433
Statement of:	Patricia Reed
Taken by:	Valerie Rodriguez
Date:	09/26/2024

Q: Thanks for taking the time to speak with me today. This recording is for claim file purposes. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened on the day of the accident?

A: I was driving home on a two-lane road in Houston, going maybe twenty-five miles an hour. A car coming the other way drifted into my lane while trying to pass a slow truck. I braked and turned, but we still met nose to nose. It wasn't a hard hit, but it was enough to jolt me forward and back.

Q: Did either airbag deploy?

A: No, nothing deployed. My seatbelt locked up and held me, though.

Q: Were you able to drive your car from the scene?

A: No. The front end was pushed in and the hood wouldn't close right, so a tow truck took it.

Q: Did you feel any pain or symptoms right away?

A: Not immediately. By that evening my neck was stiff, and by the next morning I had a dull ache across my shoulders and a headache at the base of my skull. Turning my head to check mirrors hurts now.

Q: Have you seen a medical provider since the accident?

A: Yes, I went to urgent care the following day and was referred to a physcial therapist. I'm still going to sessions twice a week.

Q: Did you have any neck or back problems before this accident?

A: Nothing serious. I had some occasional stiffness from sitting at a desk, but I wasn't in treatment for anything.

Q: Is there anything else you'd like to add to your statement?

A: Only that I've missed a few days of work because of the pain, and I'd like to be reimbursed for tohse and for my therapy costs.

Q: Thank you. We'll follow up in writing with next steps.

A: Okay, thank you.
