Claim Notes

Claim number:	C-1435
Claimant:	Lawrence Delgado
Adjuster:	Darin Tyler

6-13-24
First notice of loss received from the claimant's representing attorney, reporting a rear-end collision at a signalized intersection with a wrist fracture to the claimant. Vehicle is drivable but has rear bumper and trunk damage.

6-23-24
Confirmed that the driver is named on the policy and that the policy was in force on the date of loss. Coverage verification complete with no issues noted.

6-25-24
Police report obtained. It places the claimant in the vehicle at the time of impact and matches the reported location and general sequence of events.

7-2-24
Photos from the insured and the claimant's side were reviewed. They confirm the rear damage and the approximate point of contact, though no independent witnesses have come forward to describe the collision.

7-13-24
Reviewed the damage against the described impact speed and angle. Most of the rear structural damage is in line with what was reported. A few older scratches on the lower bumper may predate this loss and will be noted separately.

8-20-24
Spoke with the claimant through counsel. The account of how the collision occurred matches the initial statement given at first notice, with no material differences in the sequence or details.

9-30-24
Medical records received. The wrist fracture is consistent with the mechanism of a rear-end impact of this type. No prior injury to the same wrist or arm appears in the claimant's records or in the history provided.

10-23-24
Treatment began within a day of the collision and followed a typical course, including immobilization, orthopedic follow-up, and physical therapy. Treating notes describe steady improvement.

11-3-24
Nothing in the file suggests the vehicle damage occurred before the coverage start date. The prior-damage question is limited to the few minor scratches already noted.

12-4-24
Sent request to the treating orthopedic provider for updated status and expected recovery timeline. Counsel was copied on the request.

12-16-24
Updated medical report indicates the claimant has progressed well, with therapy visits decreasing in frequency as range of motion returns. Treatment appears to be tapering as expected for this injury.

2-6-25
Reserve reviewed based on the current medical picture and repair estimate. File remains open pending final medical update and resolution of the minor prior-damage note on the bumper.

Recorded Statement

Claim number:	C-1435
Statement of:	Lawrence Delgado
Taken by:	Darin Tyler
Date:	6-21-24

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just be identified as the passenger in the vehicle, if that's alright.

Q: That works for the file. Where were you sitting when the collision occurred?

A: In the front passenger seat of my friend's sedan.

Q: Can you describe what the driver was doing before impact?

A: We were stopped at a red light on Highway 6 in Sugar Land, waiting to turn. Traffic was moving slowly and we'd come to a complete stop.

Q: Did you see the other vehicle approaching?

A: Not really. I was looking at my phone. The first thing I noticed was a loud bang from behind and my body jerking forward and then back.

Q: What part of your body was injured?

A: My right wrist. I put my hand out to brace myself against the dashboard and I felt something snap right away.

Q: Did you seek medical attention?

A: Yes, the paramedics checked me at the scene, and then I went to an urgent care clinic later that evening. They took X-rays and said the wrist was fractured. I've since been referred to an orthopedic specialist.

Q: Are you currently receiving treatment?

A: I have a splint now and I'm scheduled for a follow-up. I can't work my usual job right now because I use my hands a lot.

Q: Did you experience any other symptoms, such as neck or back pain?

A: My neck feels stiff and sore, and my shoulder aches on the same side, but the wrist is the worst of it.

Q: Is there anything you would like to add to your statement?

A: Only that I was not at fault in any way. We were just sitting at the light when we got hit.

Q: Thank you. This concludes the recorded statement.

A: Okay, thank you.
