Claim Notes

Claim number:	C-1436
Claimant:	Melody Pacheco
Adjuster:	Christopher Wong

11/16/2023
First notice of loss received from the claimant, who reports being stopped at a signal when a vehicle struck the rear of the insured car. The claimant is not represented by counsel and has asked for a copy of the claim file once it is open.

11/25/2023
Confirmed that the driver is named on the policy and that the policy was active at the time of the collision. No issues with the policy terms were found.

12/27/2023
Obtained the police report, which lists the claimant as an occupant of the vehicle at the scene. The responding officer's notes match the claimant's description of the impact.

03/29/2024
Reviewed the photographs submitted by the claimant. They confirm the location of the damage and the general position of both vehicles, though they do not show the moment of impact. No independent witnesses have come forward.

04/11/2024
Inspected the vehicle. The rear bumper, trunk lid, and tail lgiht assembly damage is largely consistent with the described impact speed and direction. No earlier damage to the vehicle is known from prior claims or repair records.

05/08/2024
Spoke with the claimant about reported neck and back strain. The claimant described the same account of the collision as in the initial report, with the same sequence of events and details.

05/19/2024
Medical records show the clamiant was treated for the same body area within the last two years. The prior condition appears to add to the current complaints, so the adjuster is noting it for the medical review.

06/03/2024
Revieewd the injury against the kind and force of the collision. The reported symptoms fit well with the type of impact described and the damage to the vehicle.

06/25/2024
Treatment followed a typical course of care. Visits and therapy sessions have tapered off as the claimant reports improvement in range of motion and pain levels.

06/27/2024
Checked for any indication that the damage predates the start of coverage. Nothing in the file suggests that it does, and the policy effective dates fall well before the loss.

07/01/2024
Reviewed the file summary. Liability appears clear on the basis of the police report and vehicle damage, and the claim is recommended to proceed to settlement review pending receipt of final treatment records.

Recorded Statement

Claim number:	C-1436
Statement of:	Melody Pacheco
Taken by:	Christopher Wong
Date:	11/21/2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you reported in League City, Texas. Please state your full name for the record.

A: Ok, I'd rather keep my name off the recording if that's alright. I'm the driver of the vehicle that was hit from behind.

Q: That's understood, we can note you as the claimant. Can you walk me through what happened before the impact?

A: I was stopped at a red light on the main road, waiting to turn. The car behind me didn't stop in time and hit my rear bumper pretty hard.

Q: Were you wearing your seatbelt, and how fast do you think the other vehicle was going when it hit you?

A: Yes, my belt was on. I'd guess it was moving at a decent clip, maybe twenty or twenty-five miles an hour. My head snapped back and then forward.

Q: Did you get out of the vehicle at the scene, or were you checked by anyone?

A: I got out and sat on the curb for a while. A police officer came and took the report. I didn't go by ambulance, but I went to urgent care later that afternoon.

Q: What injuries are you currently experiencing?

A: My neck is stiff and sore, especially when I turn my head to check traffic. My lower back aches when I sit too long. The doctor said it's a neck and back strain and gave me muscle relaxers and told me to rest and do some stretches.

Q: Have you missed any work or had to change your daily activities because of this?

A: I took two days off to recover. Lifting my kids and driving for long stretches have been harder than usual.

Q: Is there anything else you'd like to add before we conclude?

A: Only that I'm trying to get back to normal and I hope this gets handled quickly.

Q: Thank you. This concludes the recorded statement.
